BINTAN RESORTS SECURITY UPDATE

Following reports of the bombing incidents in Surabaya, East Java, Indonesia, we would like to assure our business partners and the public that security checks and vigilance have been stepped up at all entry points to Bintan Resorts. Strict security measures are reinforced at Bandar Bentan Telani (BBT) Ferry Terminal, Post 1 – land checkpoint for Bintan Resorts and at the individual hotel and resort premises.

The safety and security of our guests are the top priorities of the management at Bintan Resorts. Tight security measures are maintained within the resort area to ensure that our guests can enjoy their stay without worries. We seek the understanding of our guests for any potential delays due to heightened security procedures.
